Welcome to the 2014 Angus Breeders Guide. National Herd Development has gone through some major changes in the past 12 months with both a name change and major expansion of new offices. Continuing with our main bases in Cohuna, Wangaratta and South Australia we now have new offices in Warrnambool, Terang and Timboon. We are very excited to present our Breeders Guide which offers a small sampling of the highest profile performers from many companies.

They have all been selected for their individual excellence within the breed and offer divergence for the many regions we now cover.

National Herd Development are an independent Co-operative that offer sires from all semen companies across Australia and include all breeds. We are always excited to discuss any of your specific breed requirements and try to source the best alternative for you at the best pricing.

National Herd Development
- Semen available from all semen companies and all breeds.
- For all other services see below.

Kylie Winnell
